## PREFACE

### PASSING THROUGH THE SUEZ CANAL

Looking back, 2021 has been a year in which we have had to further adapt to the COVID-19 situation in the world. The fact that stocks and the supply & demand balances of a large number of (agri-) commodities were less well coordinated than in previous years required the necessary adjustments. Prices rose to levels not seen for several years. Although this movement is timeless, in 2021 it was reinforced by a number of special events.

The first event happened more than a year ago on March 23, 2021, when container ship Ever Given ran aground in the Suez Canal. It lay there for a total of only 6 days, obstructing the passage for all shipping. The consequences were unprecedented, not just for the industry but for the global economy. To this day, several markets have still not recovered from what happened in those six days.

4 Second event that I recognize looking back is the widening and later re-introduction of lockdown measures due to the COVID-19 situation. This had a direct effect on a sectoral level. For example, channels that were closed for a long time and are being restocked at a record pace, while existing channels continued to maintain previously achieved growth. This was accompanied by peak demand and temporary shortages in raw materials and production capacity throughout the supply chains. It also applied the other way around, with the closing of sectors such as restaurants and hotels, the availability of renewable raw materials dropped and alternative raw materials had to be sought for the production of renewable fuels. All this brought new sectoral challenges in for example animals fats.

In January 2022, many thought we'd had it all and it's time to catch our breath. "Commodity prices should now fall, because the current levels were unprecedentedly high!". However, slowly indirect effects of the Covid-19 outbreak were also becoming noticeable in the world economy. For example, as continents open up and sectors start up again, demand for fuel and energy is increasing rapidly, as its cost. In our sector, we are clearly noticing the effects of the environmental policy that has been set out this year and what various countries are now implementing. Think of restrictions in renewable raw materials for the production of biofuels in Europe; the costs of CO2 emission certificates and the associated reduction target that the sector must achieve. Also, we see a clear trend in which countries are

shrinking their livestock population, so that demand for vegetable protein will shift to other regions further away from current crush facilities. And not to forget the EU's Farm2Fork strategy as well as EU's drive for deforestation-free products marketed in Europe.

If all this were not enough, we have recently been confronted with an invasion of the breadbasket and oilseed region of Europe, Ukraine. A war that has now lasted for more than a month and in which the people of Ukraine are the biggest victims. That is without any doubt a fact. But we all know what this means on a sectoral level if this continues much longer. Just like we know how dependent we have become on this region. There are clear parallels with the dependency on countries such as China and India. They may be in other sectors, but the effect is no less.

5 Despite the current situation in our sector, there are opportunities! These will be used because people and companies will learn from the current situation. We must be aware that due to our high degree of efficiency in chains, which are organized globally, we have little room to divert on the canal, especially in combination with the current strong sectoral side wind. The helmsman of the Ever Given noticed that too, with all the consequences that entails!

Jan J. J. Aalberts  
President

## GENERAL

### REGISTER OF MEMBERS

During 2021 3 B-members and 2 C-member gave notice of ending their membership. New members: 4 B-members were admitted during 2021.

The list of members as per 1<sup>st</sup> January 2022, listed in this report, contains:

	01-01-2021	01-01-2022
A-members	8	8
B-members	84	84
C-members	60	58
	<hr/>	<hr/>
	152	150

### COUNCIL

At the beginning of 2021 the Council consisted of the following members:

J. Aalberts	President	Industry
R. van Dorland	Vice-President	Industry
A. Keemink	Past-President	Industry
G. Jaspers		Industry
D. Vriens		FOSFA representative
R. van der Graaf		Trade
M. Henneman		Tropical oils refiners
H. Bolomey		Shippers
S. Oudshoorn		Industry
L. Dorrestein		Industry
S. Rekić		Brokers
R. van Noord		Secretary General

At the end of the year the Council consisted of the following members:

J. Aalberts	President	Industry
R. van Dorland	Vice-President	Industry
A. Keemink	Past-President	Industry
G. Jaspers		Industry
D. Vriens		FOSFA representative
R. van der Graaf		Trade
M. Henneman		Tropical oils refiners
H. Bolomey		Shippers
S. Oudshoorn		Industry
L. Dorrestein		Industry
S. Rekić		Brokers
R. van Noord		Secretary General

## MEETINGS

The Annual General Meeting and the Meeting of Arbitrators were held on 22 April 2021 via an ONLINE Teams meeting due to the Covid-19 pandemic. No annual dinner was held due to that situation. The Council met on 7 January, 18 February, 15 April and 15 September 2021.

## REPRESENTATION WITHIN FOSFA

In the FOSFA Council J. Aalberts acted as NOFOTA representative.

During 2021, the following members served on the Section Committees of FOSFA:

Oils and Fats Section – R. van Dorland

On behalf of NOFOTA:

R. van Kempen serves on the Technical Committee of FOSFA.

L. Margaka represents NOFOTA in the Contract Committee of FOSFA.

S. Kosorog acts as NOFOTA representative in the Arbitration and Appeal Committee of FOSFA.

## FINANCIAL COMMITTEE

The Financial Committee for 2021 consisted of R. Timmer and S. Reilingh.

## ARBITRATION

The Committee of Appointment for the Oils, Fats and Allied Products Division consisted in 2021 of:

H. Heystek	Chairman
H. Bolomey	Member
A. Keemink	Member

The Committee of Appointment of the Groundnuts Division consisted in 2021 of:

J. van Velzen	Member
---------------	--------

Attached to this report are listed:

- the latest list of arbitrators of the Oils, Fats and Allied Products Division;
- the latest list of appeal arbitrators, drawn up by the Committee of Appointment for the Oils, Fats and Allied Products Division;
- the latest list of arbitrators and appeal arbitrators of the Groundnuts Division.

## CONTRACT COMMITTEE

During 2021 the Contract Committee revised the NOFOTA Trading Rules with regard to the specifications and allowances for Used Cooking Oils and the deletion of the Hygiene Code for tank storage companies.

At the end of 2021 the Contract Committee consisted of:

L. Margaka	Chairman, industry
C. Huurman	Vice-Chairman, industry
R. Versluis	Consumers
F. Ketting	Trade
N. van der Poel	Trade
J. Postema	Brokers
S. Buisman	Consumers
W. Grooss	Non-Food
M. Sauer	Industry
H. Maduro	Representing tankstorage companies
O. Smit	Representing superintendent companies
P. van Pollaert	Representing Ucogras
C. Buchholz	Representing GROFOR

During the year 2021 the Contract Committee met on 15 June.

## LIST OF CONTRACTS AND ARBITRATIONS CLAUSES

A summary of all contracts issued by the Association is listed in the annex to this report.

## TECHNICAL COMMITTEE

The Technical Committee executed various audits according the update of recognized companies. Besides it liaised with FOSFA on the Proficiency test as well as amendments in the criteria for laboratories.

The Technical Committee consisted at the end of 2021 of:

R. van Kempen	Chairman, trade
A. Boer	Representing storage companies
T. Akkermans	Industry
M. Snieder	Industry
A. Overmars	Industry
G. Bescoby	Representing FOSFA
B. Brakenhof	Industry
A. Gario	Industry
C. van der Geest	Trade non-food
M. Rebelo	Consumers
S. Wolthuis	Industry

B(technical/laboratory)-members:

Ph. Bastijns	Laboratories
H. de Valicourt	Laboratories
A. Janssens	Laboratories
H. Janssens	Laboratories
H. van der Moolen	Laboratories
N. Janssen	Laboratories
M. Frijmuth	Laboratories
R. Flokstra	Representative superintendents

The criteria for recognized tankstorage companies became effective in 1997 and were adjusted in the Trading Rules per 1 January 2021. A copy of the current version is attached to this report. Based on these criteria 9 tank-storage companies have a recognition in 2021. A list of the recognized tank-storage companies as per January 2022 is annexed to this report.

The criteria for recognized superintendent companies became effective in 1997. A copy of the current criteria is attached to this report. Based on these criteria 11 superintendent companies have been recognized by NOFOTA. A list of the recognized superintendent companies as per January 2022 is annexed to this report.

The list of the recognized laboratories as per January 2022 is annexed to this report.

The Technical Committee met in 2021 on 11 June and 12 November.

### COOPERATION WITH KINDRED ASSOCIATIONS

The cooperation with our Kindred Associations, FOSFA, Associazione Granaria di Milano, GROFOR and UCOGRAS, continued. As far as possible the President of NOFOTA has attended the Council meetings of FOSFA. The President attended the annual dinners of FOSFA and UCOGRAS. Close cooperation with other liaised associations MVO, The Royal Dutch Grain Trade Association and Vernof continued. With MVO a three years contract was agreed on the outsourcing of the Secretary General for two days a week. The contract is for 2022-2024.

### CIRCULAR LETTERS

A list of circular letters to members issued by the Association in 2021 is attached to this report.

**GUIDELINES FOR THE FORMATION OF THE COUNCIL**

1. In case the Council consists of 10 members the following categories should preferably be represented:

Shippers	-	1
Trade	-	1
Brokers	-	1
Industry crush/refining	-	2
Industry consumer	-	2
Industry tropical oils/refiners	-	2
Industry oleochemical/biodiesel	-	1

2. Kindred Associations, being an A-member, may appoint their President to the Council, after obtaining prior approval of the Council.
3. Members of the Council must resign after a period of 8 years and may only be re-elected after a period of 2 years. For members of the Executive Council, the election period terminates after a full service.
4. Preferably, the President will be elected for a period of 2 years alternating from the list of industrial members and other categories with the exception of those mentioned under 2.
5. Preferably, the Vice-President will be elected for 2 years and directly succeed the President for the subsequent 2 years.
6. The outgoing President will preferably be nominated as 3rd member of the Executive Council for 2 years.
7. Council members who, for any reason, resign during their appointment, may propose a successor from the same category. The elected successor starts a new 2 years election period with a maximum of 8 years.

## ORDER OF ROTATION OF THE COUNCIL

April 2022	S. Rekic H. Bolomey	re-eligible re-eligible

April 2026	S. Rekic H. Bolomey	not re-eligible re-eligible
April 2027	R. van Dorland G. Jaspers M. Henneman Vacancy Vacancy Vacancy	re-eligible re-eligible re-eligible re-eligible

## GUIDELINES FOR QUALIFICATION AS (APPEAL) ARBITRATOR

Before accepting appointment, arbitrators have the duty to satisfy themselves that they are eligible to act in the dispute and that:

- a) They are being active in the trade/industry;
- b) They are being a member or being employed by a member, or having been appointed by an A-member, or having been co-opted by the Council;
- c) They have at least 5 years of experience in a qualified position in the trade;
- d) They have not been retired from active trade for more than 5 years;
- e) They followed as an aspirant arbitrator at least 1 arbitration as an observer;
- f) They -after having been arbitrator in 3 arbitrations- can become an appeal arbitrator too;
- g) They, their company or firm, have no direct or indirect interest in the transaction in dispute;
- h) They have not already advised or been consulted by one of the parties in respect of the specific dispute;
- i) They are not suspended as an arbitrator;
- j) They have taken notice of the Code of Practice for Arbitrators.

## LIST OF ARBITRAL AWARDS 2021

In the year under review 6 arbitration proceedings were applied for, of which one arbitration was withdrawn before arbitrators started their work.

During 2021, 3 arbitral awards were issued.

## OILS, FATS AND ALLIED PRODUCTS DIVISION

## CRITERIA FOR A NOFOTA RECOGNIZED TANKSTORAGE COMPANY PER 1 JANUARY 2022

**Independence**

1. The storage company shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules. In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. superintendence), these companies shall operate fully independently from the storage activities.

**General conditions/insurance/certification**

2. The tank storage company's approved releases shall be those reproduced in the NOFOTA Trading Rules, latest edition.
3. All activities of the tank storage company shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
4. The tank storage company shall cover its liability insurance with first class underwriters as appropriate to the services performed.
5. The tank storage company shall be certified for its operations in accordance with minimal ISO 9001 (latest version):
  - In case the tank storage company facilitates the storage of food products the company should also be ISO 22000 (latest version) or equivalent certified.
  - In case the tank installation facilitates the storage of feed products the company should also be GMP+ International (or equivalent) certified.
  - In case the tank installation stores only non-food/non-feed products (technical oils & fats products) the company should at least have ISO 9001 (latest version) certification.

This implies that the tank storage company shall operate with fully qualified staff and/or contractors at the highest standard customary in the country of operation and provide structural training facilities to its staff members for continuous improvement of its level of service and operations.

### Administration

6. The tank storage company shall be equipped to render the contractual administrative assistance to the trade as provided in the current edition of the NOFOTA Trading Rules. This includes the availability of an administrative batch tracking and tracing system enabling its principals and cargo-owners/-receivers to retrieve the full history of their cargoes from the moment these were brought under the custody of the tank storage company.
7. The tank storage company shall have facilities to allow for administrative work in connection with requirements from fiscal authorities, including financial security with those authorities.

### Operational/technical

8. In case of storage of food products the previous cargoes in the tanks, lines and pump systems used for storage and handling of the oils at the tank storage company must have been a product in accordance with the E.U. Commission Regulation 579/2014 or any successive Directive in force at the time of the actual storage of the goods. All materials and equipment (tanks, lines, pipes, pumps and valves, including sampling apparatus etc.) used for storage and handling of other products shall be completely separated.
9. The tank storage company shall have available officially gauged/calibrated facilities for establishing quantity and shall offer adequate sampling facilities.

### Application/duration/extension

10. A storage company applying for and operating under NOFOTA recognition shall be a member of the Association.
11. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee and will be granted upon proposal of the Technical Committee by the NOFOTA Council for a 3 year period.
12. After recognition is granted the storage company will be requested every three years to fill in a questionnaire and deliver it together with their latest ISO certificate and audit report to the NOFOTA Secretariat.
13. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.

14. If a storage company does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
15. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion. The recognition remains in place for all parcels stored prior to the date of withdrawal. Parcels stored after the withdrawal has been published to the members are no longer subject to recognition.

### Liability

16. Any liability of NOFOTA for or resulting from the (non-) recognition of a tank storage company is excluded.

## RECOGNIZED TANKSTORAGE COMPANIES AS PER 1 JANUARY 2022

Based on the criteria for recognized tankstorage companies of NOFOTA and the results of the audits and the recommendations of the Audit Committee the following tankstorage companies are recognized by NOFOTA.

### 1. Botlek Tank Terminal B.V. (\*)

Montrealweg 151  
3197 KH ROTTERDAM  
Havennummer 4260  
Tel.: +31 10 231 03 33  
info@btt-rotterdam.nl

### 2. Dekker Tankopslag B.V.

Ijsseldijk West 66  
2935 AR OUDERKERK A/D IJSSEL  
Tel.: +31 180 89 85 50  
info@dekkergroep.com

### 3. Koole Tankstorage Amsterdam B.V.

Kabelweg 57  
1014 BA AMSTERDAM  
Tel.: +31 20 581 81 80

### 4. Koole Tankstorage Pernis B.V.

Tankhoofd 2  
3196 KE ROTTERDAM  
Havennummer 3250  
Tel.: +31 10 472 45 00  
tankstorage-pernis@koole.com

### 5. Koole Tankstorage Nijmegen B.V.

Nijverheidsweg 96  
6541 CN NIJMEGEN  
Tel.: +31 24 372 71 50  
tankstorage-nijmegen@koole.com

### 6. Koole Tankstorage Zaandam B.V.

Sluispolderweg 67  
1505 HJ ZAANDAM  
Tel.: +31 75 681 28 10  
tankstorage-zaandam@koole.com

### 7. Maastank International B.V.

1e Welplaatdwarsweg 1-3  
3197 KT ROTTERDAM  
Havennummer 4135  
Tel.: +31 10 416 44 77  
info@maastank.nl

### 8. SEA-Tank Terminal N.V.

Henri Farmanstraat 25b  
B-9000 GHENT (Belgium)  
Tel.: +32 9 255 56 66  
info@seatankterminal.com

### 9. Vopak Terminal Vlaardingen B.V.

Kon. Wilhelminahaven ZOZ 1  
3134 KH VLAARDINGEN  
Tel.: +31 10 460 88 99  
terminals.vlaardingen@vopak.com

(\*) Recognized for the storage and handling of products for technical purposes only (not for food and/or feed).

## CRITERIA FOR A NOFOTA RECOGNIZED SUPERINTENDENT COMPANY PER 1 JANUARY 2022

### Independence

1. The superintendent company shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules. In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. laboratory), these companies shall operate fully independently from the superintendence activities.

### General conditions/Insurance

2. All activities of the superintendent company shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
3. The superintendent company shall cover its liability insurance with first class underwriters as appropriate to the services performed.

### Operational/technical

4. The superintendent company shall operate professionally in executing its activities within the trade of products typical the domain of NOFOTA. Subject to the Principal's agreement, sub-contracting shall only be allowed to another NOFOTA recognized superintendent company.
5. The superintendent company shall comply with the "FOSFA Code of Practice for Member Superintendents" (latest version), the ISO 5555:2001 for sampling of animal and vegetable oils and fats and with the applicable legal requirements. The superintendent company shall assure that all his equipment is in good condition, fit for their purpose and if relevant calibrated (f.i. thermometers).
6. The superintendent company shall have relevant knowledge of the NOFOTA Trading Rules as well as of relevant local and international law and regulations.

### Certification

7. The superintendent company shall be certified for all its operations in accordance with ISO standard 9001 (latest version) or equivalent. This implies that the superintendent company shall operate with fully qualified staff and/or contractors at the highest standard customary in the country of operation and provide structural training facilities to its staff members for continuous improvement of its level of service and operations.

### Application/duration/extension

8. A superintendent company applying for or operating under NOFOTA recognition shall be a member of the Association.
9. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee. Recognition will be granted by the NOFOTA Council, after positive advice from the Technical Committee.
10. After recognition is granted the superintendent company will be requested every three years to fill in a questionnaire and deliver it together with their latest ISO certificate and audit report to the NOFOTA Secretariat.
11. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
12. If a superintendent does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
13. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion.

### Liability

14. Any liability of NOFOTA for or resulting from the (non-) recognition of a superintendent company is excluded.

## RECOGNIZED SUPERINTENDENT COMPANIES AS PER 1 JANUARY 2022

Based on the criteria for Recognized Superintendent Companies of NOFOTA and the results of the audits and the recommendations of the Audit Committee, the following superintendent companies are recognized by NOFOTA.

## CRITERIA FOR A NOFOTA RECOGNIZED LABORATORY PER 1 JANUARY 2022

### Independence

1. The laboratory shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules.

In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. superintendence), these companies shall operate fully independently from the laboratory activities.

### General conditions/Insurance

2. All activities of the laboratory shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
3. The laboratory shall cover its liability insurance with first class underwriters as appropriate to the services performed.

### Operational/technical

4. The laboratory shall be accredited in accordance with the latest version of ISO 17025. The laboratory shall operate professionally in executing its activities within the trade of products typical the domain of NOFOTA. Analyses for which instructions have been given by a client shall be made by the laboratory instructed. Subject to the Principal's agreement subcontracting of standard analysis shall only be allowed to another NOFOTA recognized laboratory.
5. The laboratory shall have relevant knowledge of the NOFOTA Trading Rules as well as of relevant local and international law and regulations.
6. Methods of analyses shall be documented and valid. If analyses are done in connection with the NOFOTA Trading Rules or any contract incorporating NOFOTA Arbitration, the laboratories shall use the NOFOTA Standards of Analyses. If no NOFOTA Standard of Analyses is available, the laboratory at least shall demonstrate that the method of analysis is suitable to determine the desired analyses or properties in a reliable and accurate way, by means of method validation.
7. Reporting of the analysis results to the client shall be done in writing (by means of an original certificate of the laboratory with an authorized signature) within a reasonable time.

### Types of recognition/application/duration/extension

8. The NOFOTA recognition scheme for laboratories consists of a standard recognition, relating to the standard contractual analyses.
  9. A laboratory applying for and operating under NOFOTA recognition shall be a member of the Association.
  10. The laboratory shall participate in the yearly organized ring test. In order to judge laboratories on their correctness and reproducibility in standard and specific analyses, NOFOTA has decided to align to the yearly FOSFA Proficiency Test for the Oils and Fats section, under the condition that the results of the Proficiency Test for the NOFOTA laboratories are made available to NOFOTA. NOFOTA can decide to replace the aforementioned yearly ring test by a blind ring test or an additional ring test organized by NOFOTA.
  11. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee and will be granted upon proposal of the Technical Committee by the NOFOTA Council for a 3 year period.
  12. After recognition is granted the laboratory will be requested every three years to fill in a questionnaire and deliver it together with their list of accredited analyses and their latest ISO audit report to the NOFOTA Secretariat.
  13. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
  14. If a laboratory does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
  15. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion.
- ### Liability
16. Any liability of NOFOTA for or resulting from the (non-) recognition of a laboratory is excluded.

## RECOGNIZED LABORATORIES AS PER 1 JANUARY 2022

1. **Agrolab Dr. Verwey B.V.**  
Oosteinde 3  
2991 LG BARENDRECHT  
The Netherlands
2. **Eurofins Food & Feed Testing Rotterdam B.V.**  
Bijdorpplein 21-23  
2992 LB BARENDRECHT  
The Netherlands
3. **Inspectorate B.V.**  
Petroleumweg 30  
3196 KD VONDELINGENPLAAT – ROTTERDAM  
The Netherlands
4. **NofaLab B.V.**  
Jan van Galenstraat 41  
3115 JG SCHIEDAM  
The Netherlands
5. **QTI Services B.V.**  
Keenstraat 46  
3044 CD ROTTERDAM  
The Netherlands
6. **SGS Belgium N.V. (Division SGS Oleotest)**  
Noorderlaan 87  
B-2030 ANTWERP  
Belgium
7. **SGS Nederland B.V. (CTS/Agri Food Laboratory B.V.)**  
Malledijk 18  
3208 LA SPIJKENISSE  
The Netherlands
8. **T.L.R. Technical Laboratory Rotterdam B.V.**  
Handelsweg 70  
2988 DB RIDDERKERK  
The Netherlands

## STANDARDS OF ANALYSIS AS PER JANUARY 2022

The Standards of Analysis of NOFOTA are aligned to the FOSFA Mandatory Contractual Analysis Methods for Full Analyst Members: Oils, Fats, Technical Tallows and Greases 'latest version, applicable on the date of the activity'.

test no	determination	method of analysis
1	Determination of Lovibond colour	ISO 15305:1998
2	Flashpoint limit test using Pensky-Martens closed cup flash tester	ISO 15267:1998
3	Determination of insoluble impurities content	ISO 663:2017
4	Determination of iodine value	ISO 3961:2018
5	Determination of conventional mass per volume (litre weight in air)	ISO 6883:2017
6	Determination of melting point in open capillary tubes (slip point)	ISO 6321:2002
7	Determination of moisture and volatile matter content	ISO 662:2016
8	Determination of peroxide value - Iodometric (visual) endpoint determination	ISO 3960:2017
9	Determination of acid value and acidity (incl. FFA)	ISO 660:2020
10	Determination of ash	ISO 6884:2008
11	Determination of carotene in vegetable oils	ISO 17932:2011
12	Cold Test	AOCS Cc 11-53 2017
13	Determination of sea water contamination in oils	FOSFA Method:2010
14	Determination of trace elements by inductively coupled plasma emission spectroscopy (ICP-OES): copper (Reference method)	ISO 21033:2016
15	Determination of visible foots in crude fats and oils	ISO 19219:2002
16	Determination of fatty acid composition i Preparation of methyl esters of fatty acids ii. Analysis by gas chromatography of methyl esters of fatty acids	ISO 12966-4:2015 ISO 12966-2:2017 or ISO 12966-3:2016 ISO 12966-4:2015
17	Determination of trace elements by inductively coupled plasma emission spectroscopy (ICP-OES): iron (Reference method)	ISO 21033:2016
18	Determination of Chlorophyll Pigments in Crude Vegetable Oils	AOCS Cc 13k-13, 2017
19	Determination of phosphorus content - Part 1: Colorimetric method (Reference method)	ISO 10540-1:2003
20	Determination of refractive index	ISO 6320:2017

test no	determination	method of analysis
21	Determination of saponification value	ISO 3657:2020
22	Determination of alkalinity	ISO 10539:2002
23	Determination of ultraviolet absorbance expressed as specific UV extinction	ISO 3656:2011, Amd1:2017
24	Calculation of total fatty matter	BS 684-2.4:1976
25	Determination of unsaponifiable matter - Method using diethyl ether extraction (Reference method)	ISO 3596:2000
26	Determination of water content - Entrainment method	ISO 934:1980
27	Determination of water content - Karl Fischer method (pyridine free)	ISO 8534:2017
28	Determination of bleachability a. General Case	BS 684-2.27:1987
29	Determination of bleachability b. Bleach Test for Palm Oil	BS 684-2.27:1987
30	Determination of cadmium content by direct graphite furnace atomic absorption spectrometry	ISO 15774:2017
31	Determination of cloud point	BS 684-1.5:1987/ Amd:1989
32	Color - FAC Standard Color	AOCS Cc 13a-43 2017
33	Color - Wesson Method Using Color Glasses Calibrated in Accordance with the AOCS-Tintometer Color Scale	AOCS Cc 13b-45 2017
34	Color - Gardner 1963 (Glass Standards)	AOCS Td 1a-64 2017
35	Determination of copper, iron and nickel contents - Graphite furnace atomic absorption method	ISO 8294:1994
36	Evaluation of technical tallows and animal greases	BS 3919:1987/ Amd:1989
37	Determination of oxidized fatty acids	BS 684-2.12:1984
38	Determination of oxidative stability (accelerated oxidation test) Rancimat or equivalent	ISO 6886:2016
39	Determination of phosphorus content - Part 2: Method using graphite furnace atomic absorption spectrometry	ISO 10540-2:2003
40	Determination of phosphorus content - Part 3: Method using inductively coupled plasma (ICP) optical emission spectroscopy	ISO 10540-3:2002
41	Determination of content of polar compounds	ISO 8420:2002/ Cor 1:2004
42	Phosphoric acid test	ISO 150:2006
43	Determination of polyethylene-type polymers	ISO 6656:2002
44	Refined and Bleached Colour	AOCS Cc 8d-55 2017
45	Determination of smoke point	BS 684-1.8:1976
46	Determination of solid fat content by pulsed NMR - Part 1: Direct method	ISO 8292-1:2008
47	Determination of solid fat content by pulsed NMR - Part 2: Indirect method	ISO 8292-2:2008

test no	determination	method of analysis
48	Determination of individual and total sterols contents - Gas chromatographic method. Part 1- Animal and vegetable fats and oils. Part 2- Olive oils and olive pomace oils	ISO 12228-1/2:2014
49	Determination of titre	ISO 935:1988
50	Determination of lead by direct graphite furnace atomic absorption spectroscopy	ISO 12193:2004
51	Determination of unsaponifiable matter - Method using hexane extraction (for Sheanut Oil only)	ISO 18609:2000
52	Determination of sediment in crude fats and oils - Centrifuge method (Reference method)	ISO 15301:2001/ Cor 1:2007
53	Determination of benzo[a]pyrene - Reverse-phase high performance liquid chromatography method	ISO 15302:2017
54	Determination of the deterioration of bleachability index (DOBI)	ISO 17932:2011
55	Determination of anisidine value	ISO 6885:2016
56	Determination of the composition of fatty acids in the 2-position of the triglyceride molecules	ISO 6800:1997
57	Determination of residual technical hexane content	ISO 9832:2002
58	Determination of mineral acidity	BS 684-2.48:1998
59	Determination of water-insoluble solvents	BS 684-1.9:1976
60	Detection and identification of a volatile organic contaminant by	GC/MS ISO 15303:2001
61	Determination of stigmastadienes in vegetable oils - Part 1: Method using capillary-column gas chromatography (Reference method)	ISO 15788-1:1999
62	Determination of aliphatic hydrocarbons in vegetable oils	ISO 17780:2015
63	Determination of Lovibond® colour - Automatic method	ISO 27608:2010, Amd 1:2016
64	Determination of PAH by on-line DACC and HPLC with FLU	ISO 22959:2009
65	Determination of conventional mass per volume (litre weight in air) - Oscillating U-tube method	ISO 18301:2014
66	Determination of fatty-acid-bound chloropropanediols (MCPDs) and glycidol by GC/MS	ISO 18363-1:2015, ISO 18363-2:2018, ISO 18363-3:2017
67	Determination of Total Sulfur in Light Hydrocarbons by Ultraviolet Fluorescence	ASTM D5453-12
68	Water quality - Determination of selected elements by inductively coupled plasma optical emission spectrometry (ICP-OES)	ISO 11885:2009

## LIST OF CIRCULAR LETTERS 2021

No.	Date	Subject
1.	January	Brexit, NTR and Training Tool
2.	March	AGM and Non-business days 2020 and events
3.	April	AGM and Webinar "organic"
4.	May	Annual Report, minutes AGM and import and Export Figures
5.	June	Golf Tournament
6.	October	Price reporting, seminar and Rules for Arbitration
7.	November	FOSFA 50th anniversary, date dinner 2022 and Commodity Trade leadership programme
8.	December	Recognised boarder inspection posts, legislation and posting

The undersigned: S. Reilingh  
 R. Timmer

elected in the Annual General Meeting of 22 April 2021 to audit the finances of the Association

STATE: that on Tuesday 15 March 2022 this audit of the financial year 2021 took place;

that the Secretary General of the Association, Mr. R. van Noord, was present during this audit;

that they, having studied the financial documents, have determined that the balance sheet at 31 December 2021 and the profit and loss account for the year 2021 to be presented to the Annual General Meeting on 21 April 2022 is correct;

that they, based on this, advise the meeting to discharge the Council and the Secretary General with relation to their conduct of the association's affairs during the year 2021.

  
 S. Reilingh

  
 R. Timmer

Zoetermeer, 15 March 2022
