 NOFOTA

PREFACE

Never a dull moment

In 2018 the Netherlands Oils, Fats and Oilseeds Trade Association (NOFOTA) celebrated her centennial. That was a remarkable year.

However, 2019 also needs to be considered as a special one.

On 18 April 2019, between the starter and the second course, the Mayor of Rotterdam, Mr. Ahmed Aboutaleb and the King's Commissioner in the Province of South Holland, Mr. Jaap Smit visited our dinner to hand over the Royal certificate from the King of The Netherlands to the Association.

In his congratulatory speech, Mayor Ahmed Aboutaleb emphasised the pioneering mentality of the Association: 'The bond with Rotterdam is exceptionally strong. The efforts of the Rotterdam founders have enabled NOFOTA to grow to become an internationally respected contract body in the oils and fats chain. Our port plays a major role in the supply and processing of edible oils for the European food and feed industry. The storage and transshipment facilities for vegetable and animal oils, fats and biofuels in the Port of Rotterdam are the largest in Europe.'

5

Together with the Royal designation, NOFOTA launched a new logo and a new website with a fresh and modern appearance.

A survey was carried out by a student of the Hogeschool Rotterdam to analyse NOFOTA's future proof. Comments and suggestions from members have been collected and will be further developed by the Council in 2020.

In my speech during the annual dinner I referred to various factors that influenced the markets in 2019, such as:

- the ever-growing demand of consumers for sustainable products;
- the extreme weather condition due to global warming;
- the growing world population;
- the political instability in certain areas and trade wars.

For sure these will also continue to apply in 2020. New challenges will appear with EU's Green Deal and their Farm to Fork strategy in which -amongst others- the push back of pesticides and reduction of maximum residue limits will have serious consequences for the import and trade in oilseeds, meals, crude vegetable oils and their by-products.

Never a dull moment in our business!

Annemarie Keemink, President

2019

GENERAL

REGISTER OF MEMBERS

During 2019 2 B-members and 4 C-members gave notice of ending their membership. 1 B-membership was terminated due to insolvency.

New members: 2 B-members and 2 C-members were admitted during 2019.

The list of members as per 1st January 2020, listed in this report, contains:

	01-01-2019	01-01-2020
A-members	9	9
B-members	87	87
C-members	60	57
	<hr/>	<hr/>
	156	153

COUNCIL

At the beginning of 2019 the Council consisted of the following members:

R. van der Graaf	President	trade
D. Stregels	Past-President	industry
A. Keemink	Vice-President	industry
J. Aalberts		industry
A. Toorman		industry
C. Meinich		FOSFA representative
C. Sasburg		tropical oils refiners
E. Schimmel		shippers
S. Oudshoorn		industry
L. Dorrestein		industry
S. Rekić		brokers
R. van Noord	Secretary General	

7

At the end of the year the Council consisted of the following members:

A. Keemink	President	industry
R. van der Graaf	Past-President	trade
J. Aalberts	Vice-President	industry
D. Stregels		industry
Vacancy		industry
R. van Dorland		FOSFA representative
C. Sasburg		tropical oils refiners
E. Schimmel		shippers
S. Oudshoorn		industry
L. Dorrestein		industry
S. Rekić		brokers
R. van Noord	Secretary General	

MEETINGS

The Annual General Meeting, the Meeting of Arbitrators and the Annual Dinner were held on 18 April 2019 at the Hulstkamp Building in Rotterdam. The Council met on 21 February, 18 April and 19 September.

REPRESENTATION WITHIN FOSFA

In the FOSFA Council R. van der Graaf acted as NOFOTA representative.

During 2019, the following members served on the Section Committees of FOSFA:

Oilseeds Section - D. Stregels

Oils and Fats Section - A. Keemink

On behalf of NOFOTA:

R. van Kempen serves on the Technical Committee of FOSFA.

L. Margaka represents NOFOTA in the Contract Committee of FOSFA.

S. Kosorog acts as NOFOTA representative in the Arbitration and Appeal Committee of FOSFA.

FINANCIAL COMMITTEE

The Financial Committee for 2019 consisted of E. Berkelaar and C. Hazenoot.

ARBITRATION

The Committee of Appointment for the Oils, Fats and Allied Products Division consisted in 2019 of:

G. Neureiter Chairman

E. Schimmel Member

A. Keemink Member

The Committee of Appointment of the Groundnuts Division consisted in 2019 of:

J. van Velzen Member

P. Stienen Member

The Committee of Appointment of the Meat Division consisted in 2019 of:

C. Wendt

T. van der Ploeg

Attached to this report are listed:

- the latest list of arbitrators of the Oils, Fats and Allied Products Division including the Meat Division;
- the latest list of appeal arbitrators, drawn up by the Committee of Appointment for the Oils, Fats and Allied Products Division;
- the latest list of arbitrators and appeal arbitrators of the Groundnuts Division.

CONTRACT COMMITTEE

During 2019 the Contract Committee revised the NOFOTA Trading Rules with regard to the rapid means of communication. Telex and telegram have been replaced by e-mail and facsimile. Furthermore, with regard to the Brexit the Contract Committee prepared the clauses 110 and 111 of the Trading Rules to keep UK produced oil included.

At the end of 2019 the Contract Committee consisted of:

L. Margaka	Chairman, industry
R. Versluis	Consumers
F. Boeijkens	Trade
Vacancy	Trade
C. Huurman	Vice-Chairman, industry
J. Postema	Brokers
S. Buisman	Consumers
W. Grooss	Non-food
M. Sauer	Industry
H. Maduro	Representative tankstorage companies
K. Knegt	Representative superintendent companies
E. Coppens	Representative UCOGRAS
C. Buchholz	Agenda member GROFOR

During the year 2019 the Contract Committee met on 12 April.

LIST OF CONTRACTS AND ARBITRATIONS CLAUSES

A summary of all contracts issued by the Association is listed in the annex to this report.

TECHNICAL COMMITTEE

The Technical Committee finalized the changes in the audit procedures by moving for existing recognized companies to an administrative audit. The list of standards of analysis was updated with the current standard methods and brought in line with the FOSFA list of analysis.

The Technical Committee consisted at the end of 2019 of:

R. van Kempen	Chairman, trade
A. Boer	Representative storage companies
D. Lippens	Industry
D. el Boudouhi	Industry
A. Overmars	Industry
G. Bescoby	Representative FOSFA
B. Brakenhof	Industry
A. Gario	Industry
C. van der Geest	Trade non-food
M. Rebelo	Consumers

B(technical/laboratory)-members:

Ph. Bastijns	Laboratories
M. Bruggeman	Laboratories
A. Janssens	Laboratories
H. Janssens	Laboratories
J. van der Moolen	Laboratories
M. Verhoeff	Laboratories
R. Flokstra	Representative superintendents

The criteria for recognized tankstorage companies became effective in 1997 and were adjusted in the Trading Rules per 1 July 2019. A copy of the current version is attached to this report. Based on these criteria 9 tankstorage companies have a recognition in 2019. A list of the recognized tankstorage companies as per January 2020 is annexed to this report.

The criteria for recognized superintendent companies became effective in 1997. A copy of the current criteria is attached to this report. Based on these criteria 10 superintendent companies have been recognized by NOFOTA. A list of the recognized superintendent companies as per January 2020 is annexed to this report.

The list of the recognized laboratories as per January 2020 is annexed to this report.

The Technical Committee met in 2019 on 17 May.

COOPERATION WITH KINDRED ASSOCIATIONS

The cooperation with our Kindred Associations, FOSFA, Associazione Granaria di Milano, GROFOR and UCOGRAS, continued. As far as possible the President of NOFOTA has attended the Council meetings of FOSFA International. Furthermore, we have accepted invitations to attend the annual dinners of the various associations.

CIRCULAR LETTERS

GUIDELINES FOR THE FORMATION OF THE COUNCIL

1. In case the Council consists of 10 members the following categories should preferably be represented:

Shippers	-	1
Dealers	-	1
Brokers	-	1
Industry crush/refining	-	2
Industry consumer	-	2
Industry tropical oils/refiners	-	2
Industry oleochemical/biodiesel	-	1

2. Kindred Associations, being an A-member, may appoint their President to the Council, after obtaining prior approval of the Council.
3. Members of the Council must resign after a period of 8 years and may only be re-elected after a period of 2 years. For members of the Executive Council, the election period terminates after a full service.
4. Preferably, the President will be elected for a period of 2 years alternating from the list of industrial members and other categories with the exception of those mentioned under 2.
5. Preferably, the Vice-President will be elected for 2 years and directly succeed the President for the subsequent 2 years.
6. The outgoing President will preferably be nominated as 3rd member of the Executive Council for 2 years.
7. Council members who, for any reason, resign during their appointment, may propose a successor from the same category. The elected successor starts a new 2 years election period with a maximum of 8 years.

ORDER OF ROTATION OF THE COUNCIL

April 2020	E. Schimmel	not re-eligible

GUIDELINES FOR QUALIFICATION AS (APPEAL) ARBITRATOR

1. Being active in the trade/industry.
2. Having at least 5 years of experience in a qualified position.
3. Being a member or being employed by a member, or having been appointed by an A-member, or having been co-opted by the Council.
4. Retirement as arbitrator 5 years after retirement from the trade/industry.
5. After having been arbitrator in 3 arbitrations, an arbitrator can become an appeal arbitrator too.
6. Prospective arbitrators will first follow at least 1 arbitration as an observer.

LIST OF ARBITRAL AWARDS 2019

In the year under review 2 arbitration proceedings were applied for. One arbitration also contained a counterclaim and one arbitration concerned an appeal.

During 2019, 2 arbitral awards were issued.

OILS, FATS AND ALLIED PRODUCTS DIVISION

LIST OF ARBITRATORS AS PER JANUARY 2020

Arbitrators with an 'M' behind their names are exclusively meat experts, arbitrators with an 'A' are also appeal arbitrator.

- 34) With amended clause Arbitration, for Contract nos. 18 and 20, effective from 1st November 1985.

CRITERIA FOR A NOFOTA RECOGNIZED TANKSTORAGE COMPANY PER 1 JANUARY 2020

Independence

1. The storage company shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules.

In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. superintendents), these companies shall operate fully independently from the storage activities.

General conditions/insurance/certification

2. The tank storage company's approved releases shall be those reproduced in the NOFOTA Trading Rules, latest edition.
3. All activities of the tank storage company shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
4. The tank storage company shall cover its liability insurance with first class underwriters as appropriate to the services performed.
5. The tank storage company shall be certified for its operations in accordance with minimal ISO 9001 (latest version):
 - In case the tank storage company facilitates the storage of food products the company should also be ISO 22000 (latest version) or equivalent certified.
 - In case the tank installation facilitates the storage of feed products the company should also be GMP+ International (or equivalent) certified.
 - In case the tank installation stores only non-food/non-feed products (technical oils & fats products) the company should at least have ISO 9001 (latest version) certification.

This implies that the tank storage company shall operate with fully qualified staff and/or contractors at the highest standard customary in the country of operation and provide structural training facilities to its staff members for continuous improvement of its level of service and operations.
6. In case the tank storage company facilitates the storage of food and/or feed products all materials and equipment (tanks, lines, pipes, pumps and valves, including sampling apparatus etc.) shall be suitable for the safe storage and handling of the product in accordance with the

“Hygienecode voor op- en overslag van eetbare oliën en vetten” (Hygiene code for storage and handling of edible oils and fats), latest version VOTOB, or equivalent for those installations outside The Netherlands, applicable on the date of the activity.

Administration

7. The tank storage company shall be equipped to render the contractual administrative assistance to the trade as provided in the current edition of the NOFOTA Trading Rules. This includes the availability of an administrative batch tracking and tracing system enabling its principals and cargo-owners/-receivers to retrieve the full history of their cargoes from the moment these were brought under the custody of the tank storage company.
8. The tank storage company shall have facilities to allow for administrative work in connection with requirements from fiscal authorities, including financial security with those authorities.

Operational/technical

9. In case of storage of food products the previous cargoes in the tanks, lines and pump systems used for storage and handling of the oils at the tank storage company must have been a product in accordance with the E.U. Commission Regulation 579/2014 or any successive Directive in force at the time of the actual storage of the goods.
All materials and equipment (tanks, lines, pipes, pumps and valves, including sampling apparatus etc.) used for storage and handling of other products shall be completely separated.
10. The tank storage company shall have available officially gauged/calibrated facilities for establishing quantity and shall offer adequate sampling facilities.

Application/duration/extension

11. A storage company applying for and operating under NOFOTA recognition shall be a member of the Association.
12. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee and will be granted upon proposal of the Technical Committee by the NOFOTA Council for a 3 year period.
13. After recognition is granted the storage company will be requested every three years to fill in a questionnaire and deliver it together with their latest ISO certificate and audit report to the NOFOTA Secretariat.

14. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
15. If a storage company does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
16. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion. The recognition remains in place for all parcels stored prior to the date of withdrawal. Parcels stored after the withdrawal has been published to the members are no longer subject to recognition.

Liability

17. Any liability of NOFOTA for or resulting from the (non-) recognition of a tank storage company is excluded.

RECOGNIZED TANKSTORAGE COMPANIES AS PER 1 JANUARY 2020

Based on the criteria for Recognized Tankstorage Companies of NOFOTA and the results of the audits and the recommendations of the Audit Committee the following tankstorage companies are recognized by NOFOTA.

CRITERIA FOR A NOFOTA RECOGNIZED SUPERINTENDENT COMPANY PER 1 JANUARY 2020

Independence

1. The superintendent company shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules. In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. laboratory), these companies shall operate fully independently from the superintendence activities.

General conditions/Insurance

2. All activities of the superintendent company shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
3. The superintendent company shall cover its Liability Insurance with first class underwriters as appropriate to the services performed.

Operational/technical

4. The superintendent company shall operate professionally in executing its activities within the trade of products typical the domain of NOFOTA. Subject to the Principal's agreement, sub-contracting shall only be allowed to another NOFOTA recognized superintendent company.
5. The superintendent company shall comply with the "FOSFA Code of Practice for Member Superintendents" (latest version), the ISO 5555:2001 for sampling of animal and vegetable oils and fats and with the applicable legal requirements. The superintendent company shall assure that all his equipment is in good condition, fit for their purpose and if relevant calibrated (f.i. thermometers).
6. The superintendent company shall have relevant knowledge of the NOFOTA Trading Rules as well as of relevant local and international law and regulations.

Certification

7. The superintendent company shall be certified for all its operations in accordance with ISO standard 9001 (latest version) or equivalent. This implies that the superintendent company shall operate with fully

qualified staff and/or contractors at the highest standard customary in the country of operation and provide structural training facilities to its staff members for continuous improvement of its level of service and operations.

Application/duration/extension

8. A superintendent company applying for or operating under NOFOTA recognition shall be a member of the Association.
9. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee. Recognition will be granted by the NOFOTA Council, after positive advice from the Technical committee.
10. After recognition is granted the superintendent company will be requested every three years to fill in a questionnaire and deliver it together with their latest ISO certificate and audit report to the NOFOTA Secretariat.
11. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
12. If a superintendent does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
13. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion.

Liability

14. Any liability of NOFOTA for or resulting from the (non-) recognition of a superintendent company is excluded.

RECOGNIZED SUPERINTENDENT COMPANIES AS PER 1 JANUARY 2020

Based on the criteria for Recognized Superintendent Companies of NOFOTA and the results of the audits and the recommendations of the Audit Committee, the following superintendent companies are recognized by NOFOTA.

1. BCI Rotterdam B.V.

Waalhaven Zz. 40B
3088 HH ROTTERDAM
The Netherlands
Tel.: +31-10-3021603
operations@bci-rotterdam.com

2. Cotecna Inspection Services B.V.

Jan van Galenstraat 41
3115 JG SCHIEDAM
The Netherlands

CRITERIA FOR A NOFOTA RECOGNIZED LABORATORY PER 1 JANUARY 2020

Independence

1. The laboratory shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules.

In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. superintendence), these companies shall operate fully independently from the laboratory activities.

General conditions/Insurance

2. All activities of the laboratory shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
3. The laboratory shall cover its liability Insurance with first class underwriters as appropriate to the services performed.

Operational/technical

4. The laboratory shall be accredited in accordance with the latest version of ISO 17025. The laboratory shall operate professionally in executing its activities within the trade of products typical the domain of NOFOTA. Analyses for which instructions have been given by a client shall be made by the laboratory instructed. Subject to the Principal's agreement subcontracting of standard analysis shall only be allowed to another NOFOTA recognized laboratory.
5. The laboratory shall have relevant knowledge of the NOFOTA Trading Rules as well as of relevant local and international law and regulations.
6. Methods of analyses shall be documented and valid. If analyses are done in connection with the NOFOTA Trading Rules or any contract incorporating NOFOTA Arbitration, the laboratories shall use the NOFOTA Standards of Analyses. If no NOFOTA Standard of Analyses is available, the laboratory at least shall demonstrate that the method of analysis is suitable to determine the desired analyses or properties in a reliable and accurate way, by means of method validation.
7. Reporting of the analysis results to the client shall be done in writing (by means of an original certificate of the laboratory with an authorized signature) within a reasonable time.

Types of recognition/application/duration/extension

8. The NOFOTA recognition scheme for laboratories consists of a standard recognition, relating to the standard contractual analyses such as: FFA, moisture, impurities, phosphorus, sediment, colour, titre, saponifiability, flash point and density (conventional mass per volume – “liter weight in air”).
9. A laboratory applying for and operating under NOFOTA recognition shall be a member of the Association.
10. The laboratory shall participate in the yearly organized ring test. In order to judge laboratories on their correctness and reproducibility in standard and specific analyses, NOFOTA has decided to align to the yearly FOSFA Proficiency Test for the Oils and Fats section, under the condition that the results of the Proficiency Test for the NOFOTA laboratories are made available to NOFOTA. NOFOTA can decide to replace the aforementioned yearly ring test by a blind ring test or an additional ring test organized by NOFOTA.
11. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee and will be granted upon proposal of the Technical Committee by the NOFOTA Council for a 3 year period.
12. After recognition is granted the laboratory will be requested every three years to fill in a questionnaire and deliver it together with their list of accredited analyses and their latest ISO audit report to the NOFOTA Secretariat.
13. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
14. If a laboratory does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
15. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion.

Liability

16. Any liability of NOFOTA for or resulting from the (non-) recognition of a laboratory is excluded.

RECOGNIZED LABORATORIES AS PER 1 JANUARY 2019

- 1 Eurofins Food & Feed Testing Rotterdam B.V.

STANDARDS OF ANALYSIS AS PER JANUARY 2020

The Standards of Analysis of NOFOTA are aligned to the "FOSFA Mandatory Contractual Analysis Methods for Full Analyst Members: Oils, Fats, Technical Tallows and Greases 'latest version, applicable on the date of the activity'.

test no	determination	method of analysis
1	Determination of Lovibond colour	ISO 15305:1998
2	Flashpoint limit test using Pensky-Martens closed cup flash tester	ISO 15267:1998
3	Determination of free fatty acid content	ISO 660:2009
4	Determination of insoluble impurities content	ISO 663:2017
5	Determination of iodine value	ISO 3961:2013
6	Determination of conventional mass per volume (litre weight in air)	ISO 6883:2017
7	Determination of melting point in open capillary tubes (slip point)	ISO 6321:2002
8	Determination of moisture and volatile matter content	ISO 662:1998
9	Determination of peroxide value - Iodometric (visual) endpoint determination	ISO 3960:2017
10	Determination of acid value and acidity	ISO 660:2009
11	Determination of ash	ISO 6884:2008
12	Determination of carotene in vegetable oils	ISO 17932:2011
13	Cold Test	AOCS Cc 11-53 2009
14	Determination of sea water contamination in oils	FOSFA Method:2010
15	Determination of copper. Colorimetric method (Reference method)	BS 684-2.16:1976
16	Determination of erucic acid content (Total C22 monoenes)	ISO 12966-4:2015
17	Determination of visible foots in crude fats and oils	ISO 19219:2002
18	Preparation of methyl esters of fatty acids	ISO 12966-2:2011 or ISO 12966-3:2016
19	Analysis by gas chromatography of methyl esters of fatty acids	ISO 12966-4:2015
20	Determination of iron. Colorimetric method (Reference method)	BS 684-2.17:1976
21	Determination of Chlorophyll Pigments in Crude Vegetable Oils	AOCS Cc 13i-96 2009
22	Determination of phosphorus content - Part 1: Colorimetric method (Reference method)	ISO 10540-1:2003
23	Determination of refractive index	ISO 6320:2000/ Cor 1:2006

test no	determination	method of analysis
24	Determination of saponification value	ISO 3657:2013
25	Determination of alkalinity	ISO 10539:2002
26	Determination of ultraviolet absorbance expressed as specific UV extinction	ISO 3656:2011
27	Calculation of total fatty matter	BS 684-2.4:1976
28	Determination of unsaponifiable matter - Method using diethyl ether extraction (Reference method)	ISO 3596:2000
29	Determination of water content - Entrainment method	ISO 934:1980
30	Determination of water content - Karl Fischer method (pyridine free)	ISO 8534:2017
31	Determination of bleachability a. General Case	BS 684-2.27:1987
32	Determination of bleachability b. Bleach Test for Palm Oil	BS 684-2.27:1987
33	Determination of cadmium content by direct graphite furnace atomic absorption spectrometry	ISO 15774:2000
34	Determination of cloud point	BS 684-1.5:1987/ Amd:1989
35	Color - FAC Standard Color	AOCS Cc 13a-43 2009
36	Color - Wesson Method Using Color Glasses Calibrated in Accordance with the AOCS-Tintometer Color Scale	AOCS Cc 13b-45 2009
37	Color - Gardner 1963 (Glass Standards)	AOCS Td 1a-64 2009
38	Determination of copper, iron and nickel contents - Graphite furnace atomic absorption method	ISO 8294:1994
39	Evaluation of technical tallows and animal greases	BS 3919:1987/ Amd:1989
40	Determination of oxidized fatty acids	BS 684-2.12:1984
41	Determination of oxidative stability (accelerated oxidation test) Rancimat or equivalent	ISO 6886:2006
42	Determination of phosphorus content - Part 2: Method using graphite furnace atomic absorption spectrometry	ISO 10540-2:2003
43	Determination of phosphorus content - Part 3: Method using inductively coupled plasma (ICP) optical emission spectroscopy	ISO 10540-3:2002
44	Determination of content of polar compounds	ISO 8420:2002/ Cor 1:2004
45	Phosphoric acid test	ISO 150:2006
46	Determination of polyethylene-type polymers	ISO 6656:2002
47	Refined and Bleached Colour	AOCS Cc 8d-55 2009
48	Determination of smoke point	BS 684-1.8:1976
49	Determination of solid fat content by pulsed NMR - Part 1: Direct method	ISO 8292-1:2008

test no	determination	method of analysis
50	Determination of solid fat content by pulsed NMR - Part 2: Indirect method	ISO 8292-2:2008
51	Determination of individual and total sterols contents - Gas chromatographic method	ISO 12228-1/2:2014
52	Determination of titre	ISO 935:1988
53	Determination of lead by direct graphite furnace atomic absorption spectroscopy	ISO 12193:2004
54	Determination of unsaponifiable matter- Method using hexane extraction (for Sheanut Oil only)	ISO 18609:2000
55	Determination of sediment in crude fats and oils - Centrifuge method	ISO 15301:2001/ Cor 1:2007
56	Determination of benzo[a]pyrene - Reverse-phase high performance liquid chromatography method	ISO 15302:2007
57	Determination of the deterioration of bleachability index (DOBI)	ISO 17932:2011
58	Determination of anisidine value	ISO 6885:2006
59	Determination of the composition of fatty acids in the 2-position of the triglyceride molecules	ISO 6800:1997
60	Determination of residual technical hexane content	ISO 9832:2002
61	Determination of mineral acidity	BS 684-2.48:1998
62	Determination of water-insoluble solvents	BS 684-1.9:1976
63	Detection and identification of a volatile organic contaminant by GC/MS	ISO 15303:2001
64	Determination of stigmastadienes in vegetable oils - Part 1: Method using capillary-column gas chromatography (Reference method).	ISO 15788-1:1999
65	Determination of aliphatic hydrocarbons in vegetable oils	ISO 17780:2015
66	Determination of Lovibond® colour - Automatic method	ISO 27608:2010
67	Determination of PAH by on-line DACC and HPLC with FLU	ISO 22959:2009
68	Determination of conventional mass per volume (litre weight in air) - Oscillating U-tube method	ISO 18301:2014

LIST OF CIRCULAR LETTERS 2019

No. Date	Subject
1. 11 January	Registration for the Annual Dinner
2. 8 February	AGM and dinner, arbitrators workshop, Golf tournament, Brexit
3. 5 March	Arbitrators workshop, survey, FOSFA news
4. 6 May	New website, FOSFA news, survey
5. 2 July	Amendment Trading Rules, blockchain seminar, EU list acceptable previous cargoes
6. 4 September	Bankruptcy UCO Kampen
7. 8 October	Blockchain seminar, recognized companies, Brexit, project FUTURE proof
