PREFACE

THE BEAT GOES ON

And so another year has passed and we have already come a long way in season 23/24.

Looking back, a lot has happened since last year. The ghost of inflation seems to have almost disappeared. Energy prices have fallen significantly after record levels for natural gas and electricity. As an energy intensive sector, this was a welcome relief. Raw material prices also showed an unprecedented decline compared to previous record levels, with all the consequences that entailed.

Can it be said that there is now time to catch our breath? Personally, not in my opinion. Unrest and tension is almost palpable. A lot is going on currently from all kinds of perspectives. Economically, the recovery is still ongoing, but several regions are still struggling to get back on track. Geopolitically, the world seems more tense than ever before in the last 75 years. The war in Ukraine is still going on and the prospects are not rosy. War has also broken out in the Middle East. It seems only a matter of time before a long-running conflict in Asia will escalate as well.

Different trade flows are also developing and new routes are literally emerging, along which raw materials find their way.

Sector-wide, the consequences of Covid and the outbreak of the Ukrainian war were immediately noticeable. Just like the current situation around the Red Sea. It is admirable to see how this is being dealt with at a sectoral level and the kind of solutions that are being sought. We may need that more than ever in the coming decade.

The consequences of new EU legislations are now becoming clear and have far-reaching consequences. Not only for farmers, for entire production chains, including our own sector. We are already seeing an entire supply chain change for palm oil to Europe because otherwise EU law cannot be met. Resulting in a temporary loss of an active CIF Rotterdam futures market.

Also in the coming 24 months, a significant scale-up in biofuel production capacity will occur in Europe. This is already noticeable in the animal fats markets and in the available refining capacity for rapeseed oil. While currently the import flow of UCOs appears to be shifting from initially Europe to America. It will be interesting to see how EU's ambitions in the fields of

climate objectives, food safety and regulations will relate to economic development, prosperity and global competitiveness of the continent. Especially, for the Netherlands as a global trading country.

After three years as chair of Nofota, I am handing over the presidency this year to Lucas Dorrestein. I am confident that NOFOTA is in good hands with him. Together with other council members, he will be ready for the sectoral developments that are heading onwards to us.

For me personally, it has been three beautiful and intense years that were not always easy. But I am proud of what we have achieved as a Council. And by this way, I want to thank the members for their confidence in me.

Jan J. J. Aalberts

GENERAL

REGISTER OF MEMBERS

During 2023 no notices have been received of membership terminations. New members: 5 B-members and 9 C-members were admitted during 2023.

The list of members as per 1st January 2023, listed in this report, contains:

	01-01-2023	01-01-2024
A-members	8	8
B-members	91	96
C-members	62	71
	<hr/>	<hr/>
	161	175

COUNCIL

At the beginning of 2023 the Council consisted of the following members:

J. Aalberts	President	Industry consumers
A. Keemink	Past-President	Industry crushers/refiners
G. Jaspers		Trade
L. Tout		FOSFA representative
R. van der Graaf		Industry biofuels
M. Henneman		Industry tropical oils/refiners
H. Bolomey		Shippers
S. Oudshoorn		Industry consumers
L. Dorrestein	Vice-President	Industry crushers/refiners
S. Rekic		Brokers
R. van Noord		Secretary General

At the end of the year the Council consisted of the following members:

J. Aalberts	President	Industry consumers
L. Dorrestein	Vice-President	Industry crushers/refiners
G. van Seijen		Industry crushers/refiners
G. Jaspers		Trade
L. Tout		FOSFA representative
T. Windhopf		Industry biofuels
M. Henneman		Industry tropical oils/refiners
G. van der Heijde		Shippers
S. Oudshoorn		Industry consumers
B. Evers		Industry tropical oils/refiners
S. Rekic		Brokers
R. van Noord		Secretary General

MEETINGS

The Annual General Meeting, the Meeting of Arbitrators and the Annual Dinner were held on 13 April 2023 at the Citizen M Hotel and the Laurenskerk in Rotterdam. The Council met on 9 February, 13 April, 20 September and 13 December 2023.

REPRESENTATION WITHIN FOSFA

In the FOSFA Council J. Aalberts acted as NOFOTA representative.

During 2023, the following members served on the Section Committees of FOSFA:

Oils and Fats Section – L. Dorrestein

On behalf of NOFOTA:

R. van Kempen serves on the Technical Committee of FOSFA.

L. Margaka represents NOFOTA in the Contract Committee of FOSFA.

S. Kosorog acts as NOFOTA representative in the Arbitration and Appeal Committee of FOSFA.

FINANCIAL COMMITTEE

The Financial Committee for 2023 consisted of S. Lagendijk and S. Reilingh. The Financial Committee met on 21 March 2024 to audit the 2023 financial figures.

ARBITRATION

The Committee of Appointment for the Oils, Fats and Allied Products

Division consisted in 2023 of:

H. Heystek	Chairman
H. Bolomey	Member
G. Jaspers	Member
M. Osseweijer	Member

The Committee of Appointment of the Groundnuts Division consisted in 2022 of:

J. van Velzen	Member
---------------	--------

Attached to this report are listed:

- the latest list of arbitrators and appeal arbitrators of the Oils, Fats and Allied Products Division;
- the latest list of arbitrators and appeal arbitrators of the Groundnuts Division.

CONTRACT COMMITTEE

During 2023 the Contract Committee prepared and evaluated the seminar on NOFOTA Trading Rules and it studied the FOB Dutch Mill Ex tank contract.

At the end of 2023 the Contract Committee consisted of:

L. Margaka	Chairman, Industry tropical oils/refiners
C. Huurman	Vice-Chairman, Industry crushers/refiners
R. Versluis	Industry consumers
F. Ketting	Trade
N. van der Poel	Trade
J. Postema	Brokers
S. Buisman	Industry consumers
W. Grooss	Non-food
M. Sauer	Industry tropical oils/refiners
L. Verstelle	Representing tankstorage companies (substitute: E. Dominicus)
O. Smit	Representing superintendent companies
P. van Pollaert	Representing UCOGRAS
S. Kroeger	Representing GROFOR

During the year 2023 the Contract Committee met on 13 February and 12 December.

LIST OF CONTRACTS AND ARBITRATIONS CLAUSES

A summary of all contracts issued by the Association is listed in the annex to this report.

TECHNICAL COMMITTEE

The Technical Committee executed various audits according the criteria for recognised companies. It decided to change the administrative audit to a virtual audit. It discussed and advices on independency in relation to the insurance for recognised companies. Besides, it liaised with FOSFA on the Proficiency Test as well as amendments in the criteria for laboratories.

The Technical Committee consisted at the end of 2023 of:

R. van Kempen	Chairman, trade
A. Boer	Representative storage companies
T. Akkermans	Industry crushers/refiners
M. Snieder	Industry tropical oils/refiners
A. Overmars	Industry refiners
G. Bescoby	Representing FOSFA
B. Brakenhoff	Industry crushers/refiners
A. Gario	Industry tropical oils/refiners
C. van der Geest	Trade non-food
J.H. Pepping	Industry consumers
S. Wolthuis	Industry refiners

B (technical/laboratory)-members:

Ph. Bastijns	Laboratories
H. de Valicourt	Laboratories
A. Janssens	Laboratories
H. Janssens	Laboratories
H. van der Moolen	Laboratories
N. Janssen	Laboratories
M. Frijmuth	Laboratories
C. Tange-Fasseur	Laboratories
S. Groen	Laboratories
R. Flokstra	Representative superintendents

The criteria for recognised tankstorage companies became effective in 1997 and were adjusted in the Trading Rules per 1 January 2023. A copy of the current version is incorporated in this report. Based on these criteria 9 tank-storage companies have a recognition in 2023. A list of the recognised tank-storage companies as per January 2024 is annexed to this report.

The criteria for recognised superintendent companies became effective in 1997. A copy of the current criteria is incorporated in this report. Based on these criteria 11 superintendent companies have been recognised by NOFOTA. A list of the recognised superintendent companies as per January 2024 is annexed to this report.

The list of the recognised laboratories as per January 2024 is incorporated in this report.

The Technical Committee met in 2023 on 18 January, 19 April and 1 November.

COOPERATION WITH KINDRED ASSOCIATIONS

The cooperation with our Kindred Associations, FOSFA, Associazione Granaria di Milano, GROFOR and UCOGRAS, continued. As far as possible the President of NOFOTA has attended the Council meetings of FOSFA International. The President attended the annual dinners of FOSFA, GROFOR and UCOGRAS. Close cooperation with other liaised associations MVO (The Netherlands Oils and Fats Industry), The Royal Dutch Grain and Feed Trade Association, Vernof and the European groundnut Association continued.

CIRCULAR LETTERS

A list of circular letters to members issued by the Association in 2023 is incorporated in this report.

GUIDELINES FOR THE FORMATION OF THE COUNCIL

1. In case the Council consists of 10 members the following categories should preferably be represented:

Shippers	-	1
Trade	-	1
Brokers	-	1
Industry crushers/refining	-	2
Industry consumers	-	2
Industry tropical oils/refiners	-	2
Industry oleochemical/biodiesel	-	1

2. Kindred Associations, being an A-member, may appoint their President to the Council, after obtaining prior approval of the Council.
3. Members of the Council must resign after a period of 8 years and may only be re-elected after a period of 2 years. For members of the Executive Council, the election period terminates after a full service.
4. Preferably, the President will be elected for a period of 2 years alternating from the list of industrial members and other categories with the exception of those mentioned under 2.
5. Preferably, the Vice-President will be elected for 2 years and directly succeed the President for the subsequent 2 years.
6. The outgoing President will preferably be nominated as 3rd member of the Executive Council for 2 years.
7. Council members who, for any reason, resign during their appointment, may propose a successor from the same category. The elected successor starts a new 2 years election period with a maximum of 8 years.

ORDER OF ROTATION OF THE COUNCIL

April 2024	S. Rekić	re-eligible
April 2025	B. Evers	re-eligible
	G. Jaspers	re-eligible
	S. Oudshoorn	not re-eligible (retire)
	L. Dorrestein	re-eligible
	J. Aalberts	re-eligible
	M. Henneman	re-eligible
	G. van Seijen	re-eligible
	T. Windhopf	re-eligible
	G. van der Heijde	re-eligible
April 2026	vacancy brokers	
April 2027	B. Evers	re-eligible
	G. Jaspers	re-eligible
	L. Dorrestein	re-eligible
	J. Aalberts	not re-eligible (retire)
	M. Henneman	re-eligible
	G. van Seijen	re-eligible
	T. Windhopf	re-eligible
	G. van der Heijde	re-eligible

GUIDELINES FOR QUALIFICATION AS (APPEAL) ARBITRATOR

Before accepting appointment, arbitrators have the duty to satisfy themselves that they are eligible to act in the dispute and that:

- a) They are being active in the trade/industry;
- b) They are being a member or being employed by a member, or having been appointed by an A-member, or having been co-opted by the Council;
- c) They have at least 5 years of experience in a qualified position in the trade;
- d) They have not been retired from active trade for more than 5 years;
- e) They followed as an aspirant arbitrator at least 1 arbitration as an observer;
- f) They -after having been arbitrator in 3 arbitrations- can become an appeal arbitrator too;
- g) They, their company or firm, have no direct or indirect interest in the transaction in dispute;
- h) They have not already advised or been consulted by one of the parties in respect of the specific dispute;
- i) They are not suspended as an arbitrator;
- j) They have taken notice of the Code of Practice for Arbitrators.

LIST OF ARBITRAL AWARDS 2023

In the year under review 6 arbitration proceedings were applied for, of which two arbitrations were withdrawn before arbitrators started their work and one arbitration was withdrawn after the arbitrators commenced their work.

During 2023, 1 arbitral award was issued. It concerned crude degummed rapeseed oil. 2 arbitrations proceed to 2024 for finalisation of which one concerns crude sunflowerseed oil and one concerns POME.

CRITERIA FOR A NOFOTA RECOGNISED TANKSTORAGE COMPANY PER 1 JANUARY 2024

Independence

1. The storage company shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules. In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. superintendence), these companies shall operate fully independently from the storage activities.

General conditions/insurance/certification

2. The tank storage company's approved releases shall be those reproduced in the NOFOTA Trading Rules, latest edition.
3. All activities of the tank storage company shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
4. The tank storage company shall cover its liability insurance with first class underwriters as appropriate to the services performed. It must be clear from the liability insurance policy that the recognised company is covered. In case the recognised company falls under a consolidated policy it should be clear from the insurance policy that the recognised company is covered, and that mutual intercompany liability is not ruled out.
5. The tank storage company shall be certified for its operations in accordance with minimal ISO 9001 (latest version):
 - In case the tank storage company facilitates the storage of food products the company should also be ISO 22000 (latest version) or equivalent certified.
 - In case the tank installation facilitates the storage of feed products the company should also be GMP+ International (or equivalent) certified.
 - In case the tank installation stores only non-food/non-feed products (technical oils & fats products) the company should at least have ISO 9001 (latest version) certification.

This implies that the tank storage company shall operate with fully qualified staff and/or contractors at the highest standard customary in the country of operation and provide structural training facilities to its staff members for continuous improvement of its level of service and operations.

Administration

6. The tank storage company shall be equipped to render the contractual administrative assistance to the trade as provided in the current edition of the NOFOTA Trading Rules. This includes the availability of an administrative batch tracking and tracing system enabling its principals and cargo-owners/-receivers to retrieve the full history of their cargoes from the moment these were brought under the custody of the tank storage company.
7. The tank storage company shall have facilities to allow for administrative work in connection with requirements from fiscal authorities, including financial security with those authorities.

Operational/technical

8. In case of storage of food products the previous cargoes in the tanks, lines and pump systems used for storage and handling of the oils at the tank storage company must have been a product in accordance with the E.U. Commission Regulation 579/2014 or any successive Directive in force at the time of the actual storage of the goods. All materials and equipment (tanks, lines, pipes, pumps and valves, including sampling apparatus etc.) used for storage and handling of other products shall be completely separated.
9. The tank storage company shall have available officially gauged/calibrated facilities for establishing quantity and shall offer adequate sampling facilities.

Application/duration/extension

10. A storage company applying for and operating under NOFOTA recognition shall be a member of the Association.
11. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee and will be granted upon proposal of the Technical Committee by the NOFOTA Council for a 3 year period.
12. After recognition is granted the storage company will be requested every three years to fill in a questionnaire and deliver it together with their latest ISO certificate and audit report to the NOFOTA Secretariat.
13. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.

14. If a storage company does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
15. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion. The recognition remains in place for all parcels stored prior to the date of withdrawal. Parcels stored after the withdrawal has been published to the members are no longer subject to recognition.

Liability

16. Any liability of NOFOTA for or resulting from the (non-) recognition of a tank storage company is excluded.

RECOGNISED TANKSTORAGE COMPANIES AS PER 1 JANUARY 2024

Based on the criteria for Recognised Tankstorage Companies of NOFOTA and the results of the audits and the recommendations of the Audit Committee the following tankstorage companies are recognised by NOFOTA.

1. Botlek Tank Terminal B.V. (*)

Montrealweg 151
3197 KH ROTTERDAM
Havennummer 4260

2. Dekker Tankopslag B.V.

Ijsseldijk West 66
2935 AR OUDERKERK A/D IJSSEL

3. Koole Tankstorage Amsterdam B.V.

Kabelweg 57
1014 BA AMSTERDAM

4. Koole Tankstorage Pernis B.V.

Tankhoofd 2
3196 KE ROTTERDAM
Havennummer 3250

5. Koole Tankstorage Nijmegen B.V.

Nijverheidsweg 96
6541 CN NIJMEGEN

6. Koole Tankstorage Zaandam B.V.

Sluispolderweg 67
1505 HJ ZAANDAM

7. Koole Maastank Rotterdam Botlek

1e Welplaatdwarweg 1-3
3197 KT ROTTERDAM
Havennummer 4135

8. SEA-Tank Terminal N.V.

Henri Farmanstraat 25b
B-9000 GENT (Belgium)

9. Vopak Terminal Vlaardingen B.V.

Kon. Wilhelminahaven ZOZ 1
3134 KH VLAARDINGEN

(*) Recognised for the storage and handling of products for technical purposes only (not for food and/or feed).

CRITERIA FOR A NOFOTA RECOGNISED SUPERINTENDENT COMPANY PER 1 JANUARY 2024

Independence

1. The superintendent company shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules. In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. laboratory), these companies shall operate fully independently from the superintendence activities.

General conditions/insurance

2. All activities of the superintendent company shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
3. The superintendent company shall cover its liability insurance with first class underwriters as appropriate to the services performed. It must be clear from the liability insurance policy that the recognised company is covered. In case the recognised company falls under a consolidated policy it should be clear from the insurance policy that the recognised company is covered, and that mutual intercompany liability is not ruled out.

Operational/technical

4. The superintendent company shall operate professionally in executing its activities within the trade of products typical the domain of NOFOTA. Subject to the Principal's agreement, sub-contracting shall only be allowed to another NOFOTA recognised superintendent company.
5. The superintendent company shall comply with the "FOSFA Code of Practice for Member Superintendents" (latest version), the ISO 5555:2001 for sampling of animal and vegetable oils and fats and with the applicable legal requirements. The superintendent company shall assure that all his equipment is in good condition, fit for their purpose and if relevant calibrated (f.i. thermometers).
6. The superintendent company shall have relevant knowledge of the NOFOTA Trading Rules as well as of relevant local and international law and regulations.

Certification

7. The superintendent company shall be certified for all its operations in accordance with ISO standard 9001 (latest version) or equivalent. This implies that the superintendent company shall operate with fully qualified staff and/or contractors at the highest standard customary in the country of operation and provide structural training facilities to its staff members for continuous improvement of its level of service and operations.

Application/duration/extension

8. A superintendent company applying for or operating under NOFOTA recognition shall be a member of the Association.
9. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee. Recognition will be granted by the NOFOTA Council, after positive advice from the Technical Committee.
10. After recognition is granted the superintendent company will be requested every three years to fill in a questionnaire and deliver it together with their latest ISO certificate and audit report to the NOFOTA Secretariat.
11. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
12. If a superintendent does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
13. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion.

Liability

14. Any liability of NOFOTA for or resulting from the (non-) recognition of a superintendent company is excluded.

RECOGNISED SUPERINTENDENT COMPANIES AS PER 1 JANUARY 2024

Based on the criteria for Recognised Superintendent Companies of NOFOTA and the results of the audits and the recommendations of the Audit Committee, the following superintendent companies are recognised by NOFOTA.

CRITERIA FOR A NOFOTA RECOGNISED LABORATORY PER 1 JANUARY 2024

Independence

1. The laboratory shall not be engaged in any way in the trade of products typical the domain of NOFOTA and guarantees to operate fully independently from any other company in executing its activities under the NOFOTA Trading Rules.
In case of one or more sister companies with other activities in the domain of NOFOTA (e.g. superintendence), these companies shall operate fully independently from the laboratory activities.

General conditions/insurance

2. All activities of the laboratory shall be subject to its general conditions valid on the date of the activity and deposited either with the relevant District Court or with the relevant Chamber of Commerce.
3. The laboratory shall cover its liability insurance with first class under-writers as appropriate to the services performed. It must be clear from the liability insurance policy that the recognised company is covered. In case the recognised company falls under a consolidated policy it should be clear from the insurance policy that the recognised company is covered, and that mutual intercompany liability is not ruled out.

Operational/technical

4. The laboratory shall be accredited in accordance with the latest version of ISO 17025. The laboratory shall operate professionally in executing its activities within the trade of products typical the domain of NOFOTA. Analyses for which instructions have been given by a client shall be made by the laboratory instructed. Subject to the Principal's agreement subcontracting of standard analysis shall only be allowed to another NOFOTA recognised laboratory.
5. The laboratory shall have relevant knowledge of the NOFOTA Trading Rules as well as of relevant local and international law and regulations.
6. Methods of analyses shall be documented and valid. If analyses are done in connection with the NOFOTA Trading Rules or any contract incorporating NOFOTA Arbitration, the laboratories shall use the NOFOTA Standards of Analyses. If no NOFOTA Standard of Analyses is available, the laboratory at least shall demonstrate that the method of analysis is suitable to determine the desired analyses or properties in a reliable and accurate way, by means of method validation.

7. Reporting of the analysis results to the client shall be done in writing (by means of an original certificate of the laboratory with an authorized signature) within a reasonable time.

Types of recognition/application/duration/extension

8. The NOFOTA recognition scheme for laboratories consists of a standard recognition, relating to the standard contractual analyses.
9. A laboratory applying for and operating under NOFOTA recognition shall be a member of the Association.
10. The laboratory shall participate in the yearly organized ring test. In order to judge laboratories on their correctness and reproducibility in standard and specific analyses, NOFOTA has decided to align to the yearly FOSFA Proficiency Test for the Oils and Fats section, under the condition that the results of the Proficiency Test for the NOFOTA laboratories are made available to NOFOTA. NOFOTA can decide to replace the aforementioned yearly ring test by a blind ring test or an additional ring test organized by NOFOTA.
11. Initial NOFOTA recognition shall be subject to an audit by auditors to be appointed by the NOFOTA Technical Committee and will be granted upon proposal of the Technical Committee by the NOFOTA Council for a 3 year period.
12. After recognition is granted the laboratory will be requested every three years to fill in a questionnaire and deliver it together with their list of accredited analyses and their latest ISO audit report to the NOFOTA Secretariat.
13. If a physical audit is deemed to be necessary, the Technical Committee of NOFOTA will inform the company with a date of such audit.
14. If a laboratory does not comply with the aforementioned criteria, based on a physical or administrative audit and has received two warnings, NOFOTA holds the right to withdraw their recognition.
15. The recognition may be withdrawn at any time by the NOFOTA Council at its discretion.

Liability

16. Any liability of NOFOTA for or resulting from the (non-) recognition of a laboratory is excluded.

STANDARDS OF ANALYSIS AS PER JANUARY 2024

The Standards of Analysis of NOFOTA are aligned to the FOSFA Mandatory Contractual Analysis Methods for Full Analyst Members: Oils, Fats, Technical Tallows and Greases 'latest version, applicable on the date of the activity'.

test no	determination	method of analysis
1	Determination of Lovibond colour	ISO 15305:1998
2	Flashpoint limit test using Pensky-Martens closed cup flash tester	ISO 15267:1998
3	Determination of insoluble impurities content	ISO 663:2017
4	Determination of iodine value	ISO 3961:2018
5	Determination of conventional mass per volume (litre weight in air)	ISO 6883:2017
6	Determination of melting point in open capillary tubes (slip point)	ISO 6321:2021
7	Determination of moisture and volatile matter content	ISO 662:2016
8	Determination of peroxide value - Iodometric (visual) endpoint determination	ISO 3960:2017
9	Determination of acid value and acidity (incl. FFA)	ISO 660:2020
10	Determination of ash	ISO 6884:2008
11	Determination of carotene in vegetable oils	ISO 17932:2011
12	Cold Test	AOCS Cc 11-53 2017
13	Determination of sea water contamination in oils	FOSFA Method:2010
14	Determination of trace elements by inductively coupled plasma emission spectroscopy (ICP-OES): copper (Reference method)	ISO 21033:2016
15	Determination of visible foots in crude fats and oils	ISO 19219:2002
16	Determination of fatty acid composition	
	i. Preparation of methyl esters of fatty acids	ISO 12966-2:2017 or ISO 12966-3:2016
	ii. Analysis by gas chromatography of methyl esters of fatty acids	ISO 12966-4:2015
17	Determination of trace elements by inductively coupled plasma emission spectroscopy (ICP-OES): iron (Reference method)	ISO 21033:2016
18	Determination of Chlorophyll Pigments in Crude Vegetable Oils	AOCS Cc 13k-13, 2022
19	Determination of phosphorus content - Part 1: Colorimetric method (Reference method)	ISO 10540-1:2003
20	Determination of refractive index	ISO 6320:2017
21	Determination of saponification value	ISO 3657:2023

test no	determination	method of analysis
22	Determination of alkalinity	ISO 10539:2002
23	Determination of ultraviolet absorbance expressed as specific UV extinction	ISO 3656:2011, Amd1:2017
24	Calculation of total fatty matter - 100 - (W+A+I), where W is water content; A is ash; I is insoluble impurities, determined by the Standard Contractual Methods as per this list	
25	Determination of unsaponifiable matter - Method using diethyl ether extraction (Reference method)	ISO 3596:2000
26	Determination of water content - Entrainment method	ISO 934:1980
27	Determination of water content - Karl Fischer method (pyridine free)	ISO 8534:2017
28	Determination of bleachability a. General Case	BS 684-2.27:1987
29	Determination of bleachability b. Bleach Test for Palm Oil	BS 684-2.27:1987
30	Determination of cadmium content by direct graphite furnace atomic absorption spectrometry	ISO 15774:2017
31	Determination of cloud point	BS 684-1.5:1987/ Amd:1989
32	Color - FAC Standard Color	AOCS Cc 13a-43 2017
33	Color - Wesson Method Using Color Glasses Calibrated in Accordance with the AOCS-Tintometer Color Scale	AOCS Cc 13b-45 2017
34	Color - Gardner 1963 (Glass Standards)	AOCS Td 1a-64 2017
35	Determination of copper, iron and nickel contents - Graphite furnace atomic absorption method	ISO 8294:1994
36	Evaluation of technical tallows and animal greases	BS 3919:1987/ Amd:1989
37	Determination of oxidized fatty acids	BS 684-2.12:1984
38	Determination of oxidative stability (accelerated oxidation test) Rancimat or equivalent	ISO 6886:2016
39	Determination of phosphorus content - Part 2: Method using graphite furnace atomic absorption spectrometry	ISO 10540-2:2003
40	Determination of phosphorus content - Part 3: Method using inductively coupled plasma (ICP) optical emission spectroscopy	ISO 10540-3:2002
41	Determination of content of polar compounds	ISO 8420:2002/ Cor 1:2004
42	Phosphoric acid test	ISO 150:2018
43	Determination of polyethylene-type polymers	ISO 6656:2002
44	Refined and Bleached Colour	AOCS Cc 8d-55 2017

test no	determination	method of analysis
45	Determination of smoke point	BS 684-1.8:1976
46	Determination of solid fat content by pulsed NMR - Part 1: Direct method	ISO 8292-1:2008
47	Determination of solid fat content by pulsed NMR - Part 2: Indirect method	ISO 8292-2:2008
48	Determination of individual and total sterols contents - Gas chromatographic method. Part 1- Animal and vegetable fats and oils. Part 2- Olive oils and olive pomace oils	ISO 12228-1/2:2014
49	Determination of titre	ISO 935:1988
50	Determination of lead by direct graphite furnace atomic absorption spectroscopy	ISO 12193:2004
51	Determination of unsaponifiable matter - Method using hexane extraction (for Sheanut Oil only)	ISO 18609:2000
52	Determination of sediment in crude fats and oils - Centrifuge method (Reference method)	ISO 15301:2001/ Cor 1:2007
53	Determination of benzo[a]pyrene - Reverse-phase high performance liquid chromatography method	ISO 15302:2017
54	Determination of the deterioration of bleachability index (DOBI)	ISO 17932:2011
55	Determination of anisidine value	ISO 6885:2016
56	Determination of the composition of fatty acids in the 2-position of the triglyceride molecules	ISO 6800:1997
57	Determination of residual technical hexane content	ISO 9832:2002
58	Determination of mineral acidity	BS 684-2.48:1998
59	Determination of water-insoluble solvents	BS 684-1.9:1976
60	Detection and identification of a volatile organic contaminant by GC/MS	ISO 15303:2001
61	Determination of stigmastadienes in vegetable oils - Part 1: Method using capillary-column gas chromatography (Reference method).	ISO 15788-1:1999
62	Determination of aliphatic hydrocarbons in vegetable oils	ISO 17780:2015
63	Determination of Lovibond® colour – Automatic method	ISO 27608:2010, Amd 1:2016
64	Determination of PAH by on-line DACC and HPLC with FLU	ISO 22959:2009
65	Determination of conventional mass per volume (litre weight in air) – Oscillating U-tube method	ISO 18301:2014
66	Determination of fatty-acid-bound chloropropanediols (MCPDs) and glycidol by GC/MS	ISO 18363-1:2015 ISO 18363-2:2018 ISO 18363-3:2017 ISO 18363-4:2021

test no	determination	method of analysis
67	Determination of Total Sulfur in Light Hydrocarbons by Ultraviolet Fluorescence	ASTM D5453-12
68	Water quality - Determination of selected elements by inductively coupled plasma optical emission spectrometry (ICP-OES)	ISO 11885:2009
69	Determination of the oil content	ISO 659:2009
70	Determination of free fatty acids on the oil: I. Extraction of the oil II. Determination of acid value and acidity (free fatty acids)	ISO 659:2009 ISO 660:2020
<i>Groundnut analysis:</i>		
71	Determination of moisture and volatile matter	ISO 658:2002
72	Determination of aflatoxin B1 and the sum of aflatoxin B1, B2, G1 and G2 in hazelnuts, peanuts, pistachios, figs and paprika powder – High performance liquid chromatographic method with post-column derivatization and immunoaffinity column cleanup	EN 14123:2007
73	Determination of count in groundnut kernels	FOSFA Method:2014

LIST OF CIRCULAR LETTERS 2023

No.	Date	Subject
1.	January	AGM and Annual Dinner, membership details
2.	February	Annual Dinner, new members and events
3.	March	Events, trade missions, Erasmus Commodity & trade centre, arbitrators workshop, golf tournament
4.	May	Midsummer Trade reception, Arbitrators Workshop, FOSFA Trade Courses, UCO Regulations
5.	June	MOAH enforcement policy
6.	October	Trade statistics, Seminar on Trading Rules
7.	December	Seminar on EUDR, Petition (Poll) CIF Rotterdam market, virtual audits

The undersigned: S. Reilingh (Rabobank)
S. Lagendijk (Royal Smilde)

elected in the Annual General Meeting of 13 April 2023 to audit the finances of the Association

STATE: that on Thursday 21 March 2024 this audit of the financial year 2023 took place;

that the Secretary General of the Association, Mr. R. van Noord, was present during this audit;

that we, by studying parts of the financial documents, have determined that the balance sheet at 31 December 2023 and the profit and loss account for the year 2023 to be presented to the Annual General Meeting on 18 April 2024 give an accurate presentation';

that we, based on this, advise the Annual General Meeting to discharge the Council and the Secretary General with relation to their conduct of the association's affairs during the year 2023.

Steven de Vries Reilingh
Head of TCF Agri Europe
